EDUCATION

SRI SOWDESHWARI COLLEGE
M.Sc Physics
2021-2023

GOVT.HR.SEC.SCHOOL
Higher Education
2016-2019

SKILLS

- SAP Analytics cloud
- Power BI (certified)
- Metabase
- Apache Super set
- Data Build Tool(DBT)
- Python
- Machine Learning
- Power Automate (RPA-Certified)
- Power Apps (certified)

ABOUT ME

Dedicated and resourceful graduate in Information Technology with a passion for leveraging technology. Dynamic IT professional with a proven track record of delivering innovative solutions to complex technical challenges. Competent in a variety of IT platforms and areas, such as AI Agentic Workflows, Data Visualization, Python, and Automations. Strong analytical and problem-solving skills coupled with excellent communication and leadership abilities. Adept at collaborating with cross-functional teams to achieve project objectives and exceed client expectations. In search of chances to use my IT expertise and technological know-how to support professional development and organizational success.

WORK EXPERIENCE

NOBLQ PVT LTD.
Trainee Consultant 2024 to 2025

AI & Computer Vision Intern
Self-Driven / Current Internship (Last 2+ months)
Technologies: Python, Streamlit, OpenCV, MediaPipe, Plotly, Trimesh, Tesseract OCR, Blender, HTML/JS (Three.js)

- Developed a Streamlit-based dashboard for uploading and visualizing 3D models (.obj, .glb, .gltf, .fbx) with custom hand gesture controls using MediaPipe and OpenCV.
- Built AI-powered hand gesture recognition systems to control 3D model zoom, rotation, and panning, and extended the control to Windows cursor and mouse click behavior.
- Designed voice command features to interact with applications using speech recognition, enabling "command mode" and text dictation into apps like Notepad.
- Created a computer vision pipeline to convert multi-angle 2D product images into 3D models and made them downloadable via a web interface.
- Integrated OCR using Tesseract to extract and process data from uploaded documents within interactive dashboards.
- Contributed to building real-time dashboards in Streamlit with interactive filtering, spatial shapefile visualization (e.g., rivers, dams, basins), and SQLite data querying.

EXPERTISE

- Strategic Planning
- Communication
- Data Analysis
- Requirements Gathering
